About CoinDCX

Established in 2018, CoinDCX is the preferred crypto exchange in India, but also an instrumental player in building the broader Web3 ecosystem. Trusted by over 1.4 crore registered users. Our mission is simple: to provide easy access to Web3 experiences and democratize investments in virtual digital assets.

We prioritize user safety and security, strictly adhering to KYC and AML guidelines. In our commitment to quality, we employ a stringent 7M Framework for the listing of crypto projects, ensuring users access only the safest virtual digital assets.

CoinDCX has partnered with Okto for India to launch a secure multi-chain DeFi app that offers a keyless, self-custody wallet . It aims to simplify the world of decentralized finance (DeFi) by providing a secure, user-friendly, and innovative solution for managing virtual digital assets.

Through CoinDCX Ventures, we've invested in over 15 innovative Web3 projects, reinforcing our dedication to the Web3 ecosystem. Our flagship educational initiative, #NamasteWeb3, empowers Indians with web3 knowledge, preparing them for the future of virtual digital assets.

CoinDCX's vision and potential have gained the confidence of global investors, including Pantera, Steadview Capital, Kingsway, Polychain Capital, B Capital Group, Bain Capital Ventures, Cadenza, Draper Dragon, Republic, Kindred, and Coinbase Ventures.

At CoinDCX, we're leading India towards the decentralized future of Web3 with an unwavering commitment to safety, simplicity, and education.

Founder's Details

Sumit Gupta, Co-founder, CoinDCX

Sumit is a visionary entrepreneur and technology leader who ignited the crypto revolution in India. As the co-founder of CoinDCX, he has built India's first Crypto Unicorn from a 2-person team to a workforce of over 700 dedicated professionals. With a long-term vision, Sumit prioritizes user protection and customer experience, establishing CoinDCX as the most secure and credible platform in India's crypto industry. CoinDCX has already onboarded 15 million customers.

Sumit's influence extends beyond CoinDCX. He played a crucial role in launching the Bharat Web3 Association and has launched initiatives like Unfold, Namaste Web3, and others to support building a robust Web3 ecosystem in India. Recognized as a top influencer and respected leader, he was honoured with the Forbes India Youth Icon Award.

With a commitment to making crypto accessible to 50 million users in India, Sumit aims to propel international expansion and reshape the future of digital finance. His visionary mindset and innovation-driven approach continue to inspire generations, solidifying his position as a transformative force in the world of technology and entrepreneurship.

Founder's Details

Neeraj Khandelwal, Co-founder of Okto and CoinDCX

Neeraj Khandelwal, Co-founder, CoinDCX & Okto

Neeraj Khandelwal is the co-founder of **CoinDCX**, India's first crypto unicorn and **Okto** which is a secure multi-chain DeFi app that offers a keyless, self-custody wallet. As a known face in the crypto industry, Neeraj has been instrumental in building some of the most revolutionary products in crypto namely Lend, Staking and Margin, among others, on the exchange. With a passion for technology and an inclination towards building technology that can be scaled into a profitable business, Neeraj aims to build products that make crypto accessible and easy to global audiences. He aims to solve problems by enhancing financial systems with the help of Blockchain and Crypto technology.

Neeraj is a firm proponent of the belief that crypto and blockchain can transform finance to a much greater degree in the next 10-20 years. His areas of expertise lie in the crypto macro space and also has a keen eye for global crypto developments such as CBDC, DeFi, among others. Neeraj holds a degree in Electrical Engineering from the prestigious Indian Institute of Technology (IIT) Bombay.
